Annual Meet 2004**

Dear Friend,

Greetings from JIPMER. As usual, we are organizing the Annual Meet of the JAA in the first weekend in August ie August 7th and 8th, 2004 at our Alma Mater. We request your cooperation to make it a successful one by participating in large numbers and bringing your families along. We promise to make the meet interesting not only for you, but also for all members of your family. We have planned a new format for the meet this year, which includes more interaction and games.

As always, we welcome those who wish to participate in the Scientific Session to give your names and topics you would like to speak on. This year, as in the last meet, this session will be arranged separate from the main alumni meet. This will ensure that the speakers get a good, interested audience, while avoiding boring the non-scientific types among the members and their families! Those interested are requested to send in the details of their talks for consideration in the Scientific committee. Presentations will take place subject to the acceptance by the committee. Priority will be given based on first-come first-served basis after the topic is approved.

The cultural program will take place as usual along with the main meet. As part of this program, it has been decided this year to include a reminiscences session where members are welcome to bring and show old photos from their student days, or simply talk about old times. All of you who have photos or memories to share please bring them along on floppy/CD for computer projection; or as slides. You can also email the presentations to me in advance. All those desirous of participating are

requested to give their names and items. The cultural program and games will be followed by dinner. Guests and non-members will be charged Rs. 50/- per head for the dinner. Children below 12 years will not be charged.
